

# David Montgomery <sup>CEC</sup> Partner (Electrical)

## Years of Experience

Over 30 Years

## Areas of Expertise

- + Electrical Building Services
- + Design Build Procurement
- + Sustainability
- + LEED Facilities

## Education

Faculty of Applied Science  
and Technology, University of  
Toronto

## Professional Memberships

Canadian Institute of Quantity  
Surveyors

Ontario Institute of Quantity  
Surveyors

Canadian Green Building  
Council

## Professional Experience

David Montgomery joined A.W. Hooker in 2006 as Partner (Electrical).

Prior, he practiced electrical consulting in a variety of roles such as electrical estimating and cost control, project site supervision, and project management.

He provided such services for some of the largest Canadian electrical contractors, including State Electric and Ainsworth Electric.

David has been involved with electrical systems installation design for major, highly complex design-build projects.

He has headed and helped grow the design-build divisions of the largest electrical design-build companies in North America.

This impressive electrical experience across a multitude of project sectors generates David's reliable and highly technical cost knowledge.

## Typical Role for Assignment: Lead Electrical Quantity Surveyor

## Relevant Project Experience

The following are examples of David's wide-spanning project experience. He has performed cost consulting services for projects of all sizes and magnitudes across all sectors of construction, particularly:

**Community & Recreation Centres**

**Data Centres / High-Tech**
