Professional Experience

Tim Moore joined A.W. Hooker in 2000, and has since practiced his entire quantity surveying career with the firm.

He has performed as a Partner role since 2005.

Tim has earned extensive experience in providing cost control in not only the design stage, but has also developed an expertise in cost monitoring during construction.

His project experience involves broad exposure to all the major sectors of construction including multi-unit residential, commercial, institutional, and industrial.

Tim has exemplified accuracy and a standard of quality in his project leadership spanning projects of all sizes, magnitudes and complexities.

Typical Role for Assignment: Partner in Charge

Relevant Project Experience

The following are examples of Tim's wide-spanning project experience. He has performed cost consulting services for projects of all sizes and magnitudes across all sectors of construction, particularly:

Educational / Post-Secondary Facilities

Emergency Medical Services (Police, Fire, Ambulatory)

Healthcare / Hospitals

Historical Restorations

Housing

Judicial / Correctional Facilities

Laboratories / Research Facilities

Military / Defense

Offices

Pharmaceutical
